

AQUILA CRESTON- Escape for 4

WWW.PHANTOMMOBIL.COM

Aquila is like a blank piece of paper for writing your new stories. Every trip should be an unforgettable journey full of unbelievable experiences and beautiful memories. We want you to enjoy it either on a lazy vacation or active adrenaline-filled activities. So, the story of us is actually the story of you. It is not important who we are, the important thing is what we do for you and your loved ones.

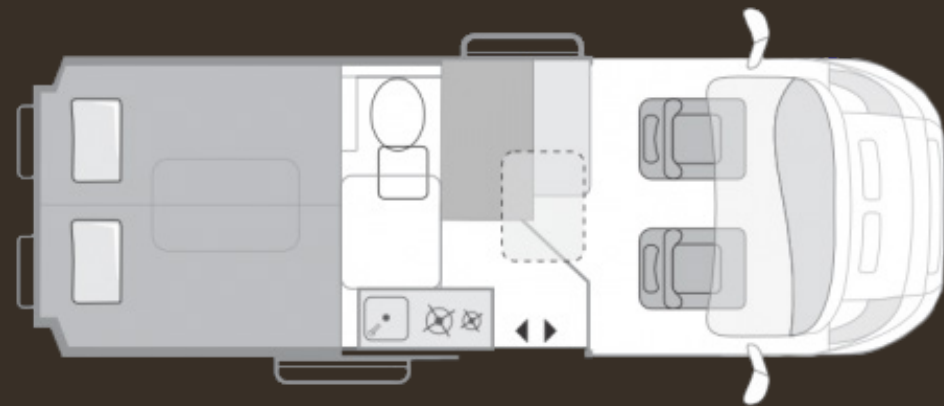

The brand AQUILA Adventure vans are produced by Phantommobil d.o.o. Company, representing high-class and innovative products in the motorhome industry. Our philosophy is to build ultra-light and durable carbon fiber vehicles with advanced design lines on the outside and spacious functional solutions inside by using natural, environmentally friendly materials. Due to the use of high-tech products and future-oriented techniques, we achieve a very low curb weight of the serviceable vehicle and thereby a high possible payload. The new, luxury AQUILA Adventure class features outstanding comfort, extraordinary design characteristics and meets the highest quality standards. Engineered for off-road use, AQUILA Adventure vans turn traveling into an unforgettable experience. Do you really want to get away from it all? Why not escape civilization from behind the wheel of an off-road RV, a vehicle that's rugged enough to tackle the trail while transporting all the comforts of home in one tough package? Phantommobil d.o.o. from Slovenia producing campers are your ticket to overlanding in style and luxury.
